More than just ink...

Inks that have proven themselves time and again: Know-how and service just in time

As the demand for colourful, flexible packaging continues to grow, so do the demands of the customers. Only those who keep up with the times as far as quality and efficiency are concerned will be able to satisfy these demands. We help our printers do this by supplying them not only with our continuously improved products, but also with a comprehensive service package that is right up with the state-of-the-art in printing techniques.

And we offer you this technical know-how wherever and whenever you need it.

Widest range of packaging inks...

As a manufacturer of high quality printing inks, Micro Inks is playing a leading role in creating solutions that meet the demands of discerning packaging printers.

Continuous research and development ensures that our products are always state-of-the-art.

We offer a wide range of 'ink systems' to meet diverse printing conditions - water based, solvent based and inks based on different resin systems. Special inks for food packaging, out-door exposure and low odour inks.

Talk to one of our sales or technical staff to discuss your specific requirement.
