

## Technical Data Sheet

HPC -0413  
RAPID DEGLAZE

Liquid deglazer to remove ink, dust embedded foreign particles from rollers and blankets

- Features** :
- Highly effective during colour changes and long print run
  - Considerably reduces the wastage after colour change
  - Ensures complete ink transfer
  - No damage to press parts
  - Quick and safe remover for blankets and rollers

**Application** :

**For Blankets**  
Apply deglazer uniformly over the blanket and keep for some time till it finishes the deglazing action, then rinse blanket with water thoroughly.

**For Rollers**  
Remove the wet ink, apply deglazer on distributor roller, run for 3-4 mins place wash up blade and clean the rollers with Micro water soluble wash or water.

**Packaging** : 1 Ltr/5 Ltr

**Properties** :

<b>Colour</b>	Pale brownish yellow
<b>Odour</b>	Characteristic
<b>Specific Gravity</b>	0.83 - 0.85 @ 25°C
<b>Clarity</b>	Transparent
<b>Appearance</b>	Transparent Liquid
<b>Viscosity</b>	11-13 sec
<b>VOC content</b>	>15%
<b>Deglazing Action</b>	Satisfactory
<b>Flash Point</b>	47°C
