

Technical Data Sheet

HPC-0607
GEL TACK REDUCER

Tack reducer for printing inks in gel form.

- Features** :
- Recommended for offset inks.
 - Reduces the ink tack but have a nominal affect on ink viscosity.
 - Improves the ink lay in solid.
 - Reduces paper picking and deposition on blanket.
 - Imparts lubricity.
 - Easy of mixing.

Application : Recommended dose is 2 - 5%. Higher dose is also possible.

Packaging : 1kg/5 Kgs/20 Kgs plastic can

Properties :

Colour	Yellowish Brown
Odour	Characteristic
Appearance	Transparent Gel
Specific Gravity at 25 °C	0.99 - 1.00
Thermal Decomposition	130°C
Viscosity	20 - 40 Poise

This information has been carefully compiled from experience gained in the laboratory and under commercial conditions. However ,the product's performance and it's suitability for the customer's purpose depend on the particular conditions of use and the material being printed. We recommend that customers satisfy themselves that each product mattes their requirements in all respects before commencing a print run. All sales are subject to our standard conditions of sale
