

## Technical Data Sheet

### HPC -0609 VISCOUS GEL

Increase the viscosity of offset Printing Inks

- Features** :
- Recommended for offset inks.
  - Increases the viscosity to a considerable extent
  - Easily mixes in ink
  - Very useful in extreme weather conditions

**Application** : Recommended dose is 2 – 5%. Higher dose is also possible.

**Packaging** : 1kg

**Properties** :

|                                     |                 |
|-------------------------------------|-----------------|
| <b>Colour</b>                       | Brownish Yellow |
| <b>Odour</b>                        | Characteristic  |
| <b>Appearance</b>                   | Transparent Gel |
| <b>Specific Gravity at 25 deg.C</b> | 0.9-1.00        |
| <b>Viscosity</b>                    | 10-40 poise     |
