

Technical Data Sheet

HPC -0610 INK REDUCER - LIQ.

Tack reducer for Web offset & Sheet Fed printing inks.

- Features** :
- Recommended for offset inks.
 - Reduces the ink tack but have a nominal affect on ink viscosity.
 - Improves the ink lay in solid.
 - Reduces paper picking and deposition on blanket.
 - Imparts lubricity.
 - Easy of mixing.

Application : Recommended dose is 0.5 - 2%. Higher dose is also possible.

Packaging : 1kg/5 Kg/25Kg plastic can

Properties :

Appearance	Transparent liquid
Colour	Yellowish Brown
Odour	Characteristic
Specific Gravity at 25°C	0.840-0.860
Thermal Decomposition	140°C
Viscosity	14 - 16 sec
