MET ROLL FIX

A special premium roller cleaning Liquid, ideal to remove ink build up on dampening pan roller, metering rollers, chrome rollers & ceramic rollers in continuous dampening system. In alcohol free printing there tend to be an increased build up of ink on the dampening rollers reducing their hydrophilic nature. Met Roll Fix maintains the affinity of metering roller for dampening solution.

Features

- Ready - to - use cleaning liquid to achieve through cleaning of metering Rollers & improves damp transfer
- Achieves thorough cleaning and de-sensitization of the rubber, ceramic & chrome roller
- It helps to deglaze these rollers
- It penetrates into micro pores & is self-acting to loosen & dissolve ink

Application

Apply sufficient quantity of Met Roll Fix using coarse cleaning cloth. Scrub the Surface clean & dry. Keep the container tightly closed when not in use. Store the plastic can in dry well Ventilated area away from direct sunlight.

Packaging

1 Ltr / 5 Ltr / 25 Ltr

Shelf life

Six months for net content & 12 months for product performance

Properties

Colour	Colourless to Yellowish
Odour	Characteristic
Specific Gravity	0.750 - 0.770
Appearance	Liquid solvent
Flash Point	62°C
Boiling Point	> 180°C
VOC Content	0 - 5 %
pH (by strip)	5.00 - 6.00

This information has been carefully compiled from experience gained in the laboratory and under commercial conditions. However, the product's performance and its suitability for the customer's purpose depend on the particular conditions of use and the material being printed. We recommend that customers satisfy themselves that each product meets their requirements in all respects before commencing a print run. All sales are subject to our standard conditions of sale.
